

SchwabEX-fog

Use

Control of hygiene and material pests such as cockroaches, ants, silverfish, golden spider beetles, flies, mosquitoes, wasps, moths, etc.

National regulations for application and trading have to be observed.

Type

Aerosol, 150 ml, code: AE.

Active Ingredients

Permethrin (20,84 g/kg) + chrysanthemum cinerariaefolium, extract (pyrethrine) 25 % (41,69 g/kg).

Mode of Action

Strong flushing effect. Rapid knockdown effect after contact with spray droplets. Long lasting residual effect by contact with spray deposits.

Special Features

- Simple application by automatic space spray. Application without the presence of persons is possible.
- Dry fog, ultra fine aerosol-particles and an airborne mist.
- Small size of can allows exact dosage.
- Tested according to § 18 Protection against infection Act and approved for officially directed disinfestations (German cockroaches) in Germany. Official identification number B-0056-01-00.

Dosage

Crawling insects: 1 can for about 100 m³,
flying insects: 1 can for about 600 m³.

Application

Wear respirator with filter A1-P3 (40 ASt). Close windows and doors. Shut off fans and air conditioners. Before application expose hiding places of crawling insects if possible. Place can on insensitive sheet in centre of room in elevated position. Arrest valve by pressing down strap of discharge nozzle until it is locked. Leave area. Can sprays empty in about 2 minutes.

Mist spraying can be interrupted at any time by lifting up the strap with a screwdriver. Ventilate rooms thoroughly after 3 hours at the earliest. Deposit has residual effect and protects from hatching or invading pests.

Room temperature not above 23 °C during application if possible.

Cockroaches

Cockroach infestations are controlled best in the evening. Schwab-EX-fog should be allowed to act overnight. It is strongly recommended to repeat the treatment after 5 weeks (German cockroaches) respectively 5 months (Oriental cockroaches and other large cockroaches).

Cockroaches prefer warm and dark hiding places near water and food, for example cracks, crevices and hollow spaces near stoves, refrigerators, dishwashers and other sources of heat, sinks and washbowls, tiles, cupboards, shelves, wainscots, door panel linings, baseboards and the like.- Pay also attention to cutting through for pipes, ceiling beams, etc.

Caution

Extremely flammable aerosol. Pressurised container: May burst if heated. May cause an allergic skin reaction. Very toxic to aquatic life with long lasting effects.

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Protect from sunlight. Do not expose to temperatures exceeding 50 °C/ 122 °F. Do not breathe spray. Wear protective gloves/protective clothing/eye protection/face protection. IF ON SKIN: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. Avoid release to the environment. Collect spillage. Dispose of contents/container to approved disposal company or local collection. Repeated exposure may cause skin dryness or cracking.

All persons except the applicator have to leave the room. Remove unpacked foodstuffs and feed, domestic cattle and animals as well as toys, exposed dishes and other commodities before application. Cover aquariums and terrariums (shut off ventilating system). Cover kitchen utensils, tables, benches and other surfaces on which food is laid down, prepared or consumed as well as clothes, seating furniture or other surfaces which are often contacted by skin or wash or clean them after treatment with an alkaline detergent.

Avoid contact with fresh, moist deposits. Keep away children and pets.

In case of application in living-rooms clean carpets once before application and at regular intervals after application.

Air rooms thoroughly before using them.

Official recommendation for pyrethroids:

In case of intensive skin contact (especially of the face) the product can cause a tickling sensation without external irritative symptoms. The occurrence of this irritation is a warning; discontinue use. Get medical attention if symptoms persist or develop or if further symptoms occur.

Keep away from waters.

Disposal

Wastes resulting from the use of this product are to be disposed according to national regulations.

Packaging

Carton with 12 aerosol cans à 150 ml.
