

PRODUCT INFORMATION

Detektiv S

Use

Pest monitoring – that means early detection and localization of pest infestation as well as evaluation of control measures. Suitable for crawling pests, especially cockroaches.

Type

Adhesive trap with attractant. Pre folded hiding place made of polyethylene-coated cardboard. Size approximately 95 x 75 x 15 mm.

Mode of Action

The insects get glued by traversing the adhesive surface. Contains no insecticidal active ingredients.

Special Features

- High catch activity by particular shape and attractant tablet.
- Strong adhesion effect in wide temperature range. Young nymphs and adult cockroaches are caught for sure.
- On vertical surfaces, Detektiv S can be installed stable with included glue pads (useful for German cockroaches!).

Dosage/Quantity

The number and placement of the traps arise from the local conditions.

Application

The placement of Detektiv S is important for the success!

Detektiv S should be placed in the immediate surrounding of the suspected infestation and the preferred hiding places of cockroaches.

These are warm, moist and dark hiding places near water and food, for example cracks, crevices and hollow spaces near heaters, stoves, ovens, refrigerators, dishwashers, sinks and washbowls, tiles, cupboards, shelves, wainscots, door panel linings, baseboards and the like. Pay also attention to cutting through for pipes, ceiling beams, installation shafts, etc.

Place Detektiv S never on exposed surfaces, but in corners or along walls, sockets, etc.

The type, intensity and local distribution of pest infestation must be known before a pest control. After control measures a control of success is essential.

Adhesive traps are not an alternative to control pests with insecticides. But they are a useful tool for a controlled, targeted and thus more effective application of pesticides.

Packaging

Cartons with 10 and 100 pieces (attractant tablets included).

Biozidprodukte vorsichtig verwenden. Vor Gebrauch stets Etikett und Produktinformation lesen. Use biocides safely. Always read the label and product information before use. Vor Gebrauch stets Etikett und Produktinformation lesen. Use plant protection products safely. Always read the label and product information before use.
